

Continuing Healthcare of Lisbon | Testimonial

Here's what's being said...

“ I would choose Continuing Healthcare of Lisbon for my family, friends, and myself! The location is very nice with beautiful surroundings and landscaping. You feel like you are in the country, but there are stores and restaurants close by. The inside of the building is odor free and very clean, with shiny floors. It has a big, beautiful dining room with lots of areas for families to visit. They have entertainment often and it's very good. Their meals are very good with a nice variety of food to choose from. The staff is very caring also. I know other people that have been there for care. They were very satisfied and now I know why! ”
