

## Continuing Healthcare of Boardman | Testimonial

### Here's what's being said...

“On the evening of February 3rd, 2020, we arrived at Continuing Healthcare of Boardman for the first time. We were met by very friendly staff members, aides, and everyone was willing to help as much as possible. As time went on during Bob's stay, I could see that all the staff were sincere about their jobs and that they care very much about their patients. An aide named Helen immediately comes to mind; she was so nice and loving. She made Bob smile often and that's what he needed as he was depressed a lot. But it was not only Helen, all the rest of the aides were great too! I have only good things to say about Continuing Healthcare of Boardman.”

- Phyllis A. Litavetz, spouse of resident
