

Continuing Healthcare of Niles | Testimonial

Here's what's being said...

“ If I ever need to go to a facility again, I would come back to Continuing Healthcare of Niles. I love the staff, everyone was always smiling and friendly. The therapy department worked hard to meet my needs. They treat every resident as individuals, made me laugh, and encouraged me to work hard to meet my goals. I enjoyed the activities they provided because it was nice to have something going on to take your mind off your recovery. ”
