

Pine Ridge Skilled Nursing & Rehabilitation | Testimonial

Here's what's being said...

“ I was discharged from Pine Ridge on April 30, 2020. I was admitted in December of 2019. I worked really hard in therapy to achieve my goal of returning home. The staff was friendly and very helpful. I would recommend Pine Ridge to my family and friends if they were in need of a Skilled Nursing Facility. I was glad to accomplish my goal of being able to go home especially since the pandemic happened right before my discharge. My family was pleased that the staff took all the precautions to keep me and the other residents safe. ”
