

# ***A Special Thank You to the Sienna Hills Staff***

June 24, 2020

As the Administrator of Sienna Hills Skilled Nursing and Rehabilitation, I would like to publicly thank our Extraordinary Staff for the excellent care they provide our residents daily, and continued to provide without fail during our recent Covid-19 outbreak. For weeks the staff reported to work, often for double shifts, donning their full personal protective equipment at the start of their shift to be worn at all times. The sight of their N95-marked faces by the end of their shifts will stay with me forever—as will the fact that they kept coming back to work to care for their residents! This, despite the very difficult conditions, as well as the fear of Covid-19 and the possibility of taking it home to their families. On behalf of our residents and families, I cannot thank or acknowledge them enough.

We have now been Covid-19 free for 4 weeks and are continuing, per the Governor's orders, to restrict visitors, screen all employees as they enter the building, wear facemasks while at work, sanitize and hand wash. And, of course, hope that the pandemic soon comes to an end with a vaccination. Until then, we will continue to follow the State of Ohio guidelines and will continue to update our families on their loved ones.

Stay Well!

Luan Mizer, Administrator
