Memory Care

Caring with Integrity

Charlene Hill is the Aunt of our Therapy Director, Nicole. She is a former transplant recipient and came to us to gain her endurance and strength back so she could return home. Charlene worked very hard and was able to reach her goals. We were very happy for her! She came to us not only because Nicole is her niece, but because we took care of her father and helped him reach his goals to return home. Charlene noted that she was very happy with her care and all of the new friends she met while staying with us. She said she will be back to visit in the near future. Thank you, Charlene, for selecting our facility and allowing us to help you reach your goals.
