

# Sienna

Skilled Nursing and Rehabilitation

## *Caring with Integrity*

When I first got here I felt lost because I had to be in isolation due to Covid. It was scary and lonely because I couldn't see my family. Then therapy started coming to my room and working with me to get out of bed and sit on the edge of the bed to help me build my core muscles. Then I started to be able to stand up and be able to get in the wheelchair. Although I started getting phone calls from friends and family telling me they were praying for me, the staff from the facility were encouraging and helping to motivate me everyday. I have done missions all over the world and this had become my latest mission and the staff at Sienna Skilled were helping to complete this mission. Once I was able to come out of quarantine and go to the therapy room I really felt my improvement start to happen. Rachel (PTA) and Isha (COTA) worked with me everyday and found ways to figure how to get me through each of my struggles and meet my goals. I would set my personal goals on top of the therapy goals and they would assist me in getting to them. I told them how far I wanted to be able to walk and they helped me to get there, we did it together. Evelyn, from Speech Therapy, was a big help with getting me back to my regular diet and being able to learn how to swallow again. Jennifer (COTA, DOR) and Vanessa (PT) took me out to my home to make sure that everything was accessible and made recommendations to ensure my safety upon my discharge to home. The staff was always professional, knowledgeable and understanding of my situations and never gave up on my tough days. Tammy (SSD) worked with my to family to make sure all the plans were in place for me to be able to return to home and getting the services I needed. The continued encouragement and teamwork from the therapy team and facility staff helped me to get where I am today.
